AN AERIAL AND ACROBATIC ADVENTURE TALE

The AUREUM story

Aureum is a story of finding love in the most unusual places, and how the bonds that unite us are stronger than those that divide us.

The benevolent White Queen of Aureum and her warrior guardian welcome twins into the world. Knowing that the White Queen's bloodline is the only way to gain control of the powerful magic of the Seed, the Red Empress, seeking to gain ultimate power over Aureum, hatches an evil plan to kidnap one of

of the twins setting our tale in motion. The Seed commands the forces of nature and imbues it's carrier with immense power and strength.

In the meantime, a young academic has discovered a key that magically transports him to aureum where he

stumbles into a world of wonder and the amazing characters who staunchly defend it.

Through the sorcery of the Red Empress, a gathering of dark powers threatens the tranquil world of Aureum, and its inhabitants must find a way to protect it at all costs.
